1933 Ford 5 Window Coupe - You are viewing a 1933 Ford 5 Window High Boy Coupe. This is an original Henry Ford Steel street rod. Not a fiberglass kit car. The REAL deal here! Built with only the best high end components to complete show quality. The Rangoon Red paint with flames on this laser straight body is just stunning! Very nice high end interior finished with a wheat color fabric with brown leather accents. Very comfortable and also very roomy. I am 6 foot one and have way more than enough room.

Has a 3 inch chop with rear trunk. Frame is a TCI with all tubular steel cross members. This Rod uses Posie's Super Slider Buggy style cross springs on both front and rear, Chrome Super Bell front axle, 8 inch Ford rear with 3.00 gears, 4 bar link set up in the rear which is fully adjustable, Willwood brakes and 16 gallon Gas Tank. Extremely nice handling and driving Street Rod. Motor is a new Blueprint 302 with aluminum heads, Sanderson headers and MSD Fuel Injection. Transmission is a FoMoCo aluminum case C4. Have lots of documentation with this car including pictures from the 70's. Car has perfect stance sitting on Billet Boyd Cottingham wheels. Just way to much to list here. Here is your chance to own a true Steel Body Hot Rod.
