1970 Oldsmobile Cutlass 442 Tribute - You are viewing a 1970 Oldsmobile Cutlass 442 tribute. Originally, our featured Oldsmobile started live as a two-door Holiday Coupe, built in the Lansing, Michigan Oldsmobile plant. It is equipped with a four-barrel 350-cu.in. V-8 from the factory, rated at 310 horsepower. Transmission is a Turbo 350. The True Dual Flowmaster Exhaust sounds incredible! The Cutlass was completely repainted in 2017, in an original shade of Burgundy Mist Metallic. When

the car was painted, it was accentuated with the 4-4-2 appearance items you see on the car today. A Ram Air Hood with Paint Stripes, the Dual-Trumpet Exhaust with Cutout Bumper, the 4-4-2 Emblems and Grille. When painted, 1971 Olds 442 Front and Rear Bumpers, Grill, Tail Lights etc. were used. So now actually has the appearance of a 1971 442. Paint is extremely nice. Interior is also extremely nice. Vinyl top in perfect shape. One very small tear on drivers seat. Very small. Car drives like new! Very dependable. In fact, the gentleman I bought it from, drove it from Denver Colorado to Orlando Florida with NO issues just 3 months ago. This is a car you can take to local car shows and park next to \$100,000 cars and be very proud.
