1976 Pontiac Trans Am - You are viewing a 1976 Pontiac Trans Am. This is a fully documented RARE Y82 SE T Top. Only 533 - 400, SE with T Tops were produced in 1976. This figure with PHS shows Automatic and 4 Spd's combined. So this being a 4 Spd has to be less then half of 533 produced. I have a crisp build sheet and PHS documentation proving this is the real deal! This TA has 58,201 Actual documented miles. This is a very original car with one repaint. It is all numbers matching.

Paint is show quality and body is original and laser straight. Interior in original and very clean. Original radio is missing. No holes cut where radio was. A newer radio installed in console. Undercarriage is very clean. Not redone. Original. Has original catalytic converter and muffler. Exhaust from converter to muffler has been replaced. Trunk super clean with original space saver and Hurst T Top cover. This Trans Am runs and drives like NEW!!!! Very tight. If you have any questions or want to discuss a buy it now price, please call me. I ask 2 things. Please look at all pictures and watch the video to see how nice this car is and do research to see how rare this car is. Try to find another SE, 400, 4 Spd with T-Tops. Don't miss this incredible investment!!
