**1987 Buick Grand National** - You are viewing what I think might be one of the nicest Grand National's in existence! I purchased the car from a 78 year old gentleman. He owned this car for many years. The last 12 years he strictly trailered it to many car events and judged shows. Showing 16K miles, the car is in new condition. Paint and body are beyond show quality. Interior looks like its never been sat in. Still smells new! As I mentioned, he showed the car, so serious money was spent preparing for

national shows. Study the engine compartment pictures! As you can see no expense spared. The undercarriage, the same. Want to mention one tiny chip on edge of hood. Very minor.

Previous owner did some performance mods. Once again, no expense spared. All mods were done enhancing performance, but also keeping it safe to drive. If you're a GN enthusiast, you know these can have issues with too much boost etc. Mods are PT 51 Turbo, 40lb injectors, 1 ½ Bowling Green Intercooler, 3 Inch Down Pipe, ATR Fully Polished Exhaust and Red Armstrong chip. When I got the car, I took it my friends at KDK Performance to have them go over everything, tuning engine and dialing it in for maximum safe street performance. They are specialist with GN's and said this is one of the nicest they had ever seen! The tires looked great but were older so I replaced them with brand new BF Goodrich G Force tires mounting them on the GNX wheels that were on the car. Everything works perfect on the car. AC is ice cold. Is fully loaded with all options including very rare Moonroof and Upgrade Stereo with CD changer in trunk. This GN was featured in magazines and was chosen to be in the coffee table book, First Century of the Automobile – First 100 years, First 100 cars. This GN represented 1987. See trunk Picture.
